Presentation on “Value Analysis Model in Simulation and How it can be applied to Simulation Experiences to Calculate Return on Investment”	Jessica Antisel, Leslie Webb, and Ann Willemsen-Dunlap.	<ul style="list-style-type: none"> • Introductions were made for the guest speakers-Jessica Antisel, Leslie Webb, and Ann Willemsen-Dunlap. A slide deck and survey for post-attendance were shared. • Presentation was given on the value shift with a return on investment, specifically as it relates to simulation. Details included defining value, lit review, access, actions, impact, and financial benefit within a project/business alignment model. The ROI model and Value Analysis models were used in addition and focused on needs, establishing simulation training, and cost analysis, Cost analysis was broken down to include rooms, facilitators, and catering costs, thus showing an increase of return on investment for the JUMP center. • Slides are attached for further information. • The model was then explored as being utilized at JUMP, along with the Value Analysis Model as a framework. • Appreciation was given to the presenters from the SLSIG group for the applicability of their project towards simulation.
